Breast Cancer Awareness month is to help raise awareness of breast cancer, educate the public about its symptoms and prevention, and fund research into its causes, treatments, and cure. It's the most common type of cancer in women: it accounts for one of every three diagnoses in the United States. Please wear pink ribbons to support current patients, survivors, and lost loved ones.

## Message From Our Executive Director - Tom Karnes

The last two to three weeks in October (and, occasionally, the first week of November) are normally the only time of the year during which all of the Big Four major professional sports leagues in the U.S. and Canada schedule games: the National Basketball Association begins its preseason and about two weeks later starts the regular season; the National Hockey League is about one month into its regular season; the National Football League is about halfway through its regular season, and Major League Baseball is in its postseason with the League Championship Series and World Series. To date, there have been 30 occasions in which all four leagues played games on the same day (An occurrence popularly termed a sports equinox.), with the most recent of these having taken place on October 30, 2023.

If you are a sports fan, this will be an exciting month for you! Enjoy!

October is  
National  
Domestic Violence  
Awareness Month

Domestic Violence Awareness Month (DVAM) is held throughout the month of October as a way to bring advocates across the nation together to end domestic violence. Communities and advocacy organizations across the country will connect with one another in a true sense of unity to end domestic violence for good.
