

## Providence House

Assisted Living at Corey Park in Brighton  
Affordable Assisted Living for Seniors of All Incomes

The Memory Care Program at Providence House is designed for residents with Alzheimer's disease and related memory disorders. Residents enjoy a flexible structure, while family members appreciate the opportunity to interact with loved ones as individuals rather than as caregivers.

The environment and program organization address the physical, cognitive, emotional, spiritual, and social needs of residents. The neighborhood features studio apartments and companion suites, with specialized care provided by a staff of certified dementia practitioners.

# Memory Care Program
